

Dear participants to the 2013 meeting of the Latin American Corporate Governance Roundtable,

First, we wish to express our sincere and enthusiastic thanks on behalf of the OECD and our co-hosts, the Bolsa de Quito and Ecuadorian Corporate Governance Institute, for your participation and excellent insights at last week's meetings in Quito.

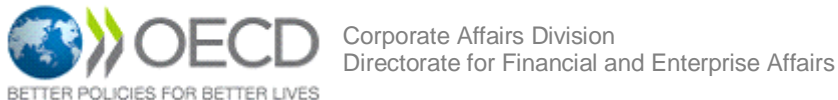

As promised, please find attached a brief summary of the conclusions and highlights and a copy of the Roundtable's main report on "Trends and Factors Impacting on Latin American Equity Market Development" for your written comments by no later than **29 July, 2013**. The attached conclusions note provides more details on the issues and concerns to take into consideration.

You will be receiving an additional two emails with the presentations attached, and they will soon also be available on the [OECD](#) and [Ecuadorian Corporate Governance Institute](#) web sites.

A more detailed summary record will follow in August, after reception of your written comments.

Best regards,

Daniel Blume and the Roundtable organizing team
